Do you like smell of cakes baking? Fresh flowers? Well, it's possible to experience. You just need a cool gadgets. This product is amazing because it lets you share smells with people anywhere in the world. I love how the product lets you be creative in mixing different smells. I also like the idea of receiving smells. So if my friends are camping and I'm not there, at least I can smell the burning campfire! This product is good, but there are some things about it that I don't like. First, the gadgets is big and not mobile. The product is also pretty expensive! So not a lot of people can get it. All in all, I give this !product three out of five
