

your eyes are watery, your throat is sore, you are coughing and sneezing constantly, and you are shivering, then you have influenza, or the flu.I had seafood, then I had steak, and for dessert, I had pudding followed by ice cream and chocolate fudge cake, and...Oh, the thought of food makes me

sick!Omar:That's a shame!I have a stomachache, and I feel like vomiting.Omar:You should see a

doctor.Bud:I just did.Additional symptoms are a high fever and severe muscle aches and pains.A person

?sneezing or coughing transmits the infection through the air.What's the matter
