

Paw prints were seen in a number of places and puma fur was found clinging to????????
Bushes. However, as the evidence began to accumulate, experts from the Zoo felt investigate, for the
descriptions given by people who chimed to to have seen the puma were extraordinarily similar. Colle
Pumas are large, cat-like animals which are found in America, When report came into London Zoo that
a wild puma had been spotted forty-five miles south of 5 London, they were not taken seriously ?obliged
to evidence began to accumulate ????ontelope ???ran away when she saw it, and experts confirmed
that a puma will not attack attack a a human being unless it is cornered. Several people complained of
'cat-like noises' at night and a business- man on a fishing trip saw the puma up a free.spring 15 The
hunt for the puma began in a small village where a woman picking blackberries saw a large cat' only five
yards away from her. The search proved difficult, for the puma was often observed at one place in the
morning and at another place twenty miles away in the evening. Wherever it 20 went, it left behind it a
trail of dead deer and small animals like rabbits. The experts were now fully convinced that the animal
was a puma, but where had it come from? As no pumas had been reported missing from any zoo in the
country, this one must have been in the possession of a private collector and somehow managed to
escape. trial I A Puma at Large ??????speciale ??????The hunt went on for several weeks, but the puma
was not caught. It is disturbing to think that a dangerous wild animal is still at large in the quiet
????????? countryside. ??????????????????????????????????It immediately
