

Cars were a mode of transportation for humans at this time, and it was difficult to move from one place to another without them. As a response, people relocated to cities like Abu Dhabi because it was more convenient for them, causing in overpopulation. Car transportation between cities. It is vital to solve the traffic problems, as well as the environmental and human health harm caused by automobiles, and to know how to do so correctly and safely. Did you notice that the number of cars on the road has surpassed the number of people on the planet? To solve this problem, which is causing other crises, a long-term solution must be found. The metro in the United Arab Emirates has begun but should more .because not all human use metro go another place or area can't be metro building
