

Hello everyone, my name is Hanan. This siege has many damages, including economic damages due to the lack of materials needed for industry, in addition to blocking the crossings, electricity cuts, water cuts and health damages due to the lack of medicines and Treatment tools, which results in an increase in the number of deaths, and in the end, I hope that this siege will end as soon as possible. Today, I will talk about the siege that Gaza City is going through, from which we all suffer.
