

School Camping Trip Last weekend, our school organized an exciting camping trip for students in the seventh grade. In the afternoon, we participated in various outdoor activities. Upon arrival, we were divided into small groups and assigned tents to set up. It was our first challenge, and everyone worked together, laughing and helping each other. The teachers organized fun games, like tug-of-war and a scavenger hunt, which encouraged teamwork and creativity. Some students went hiking, exploring nature and spotting different plants and animals, while others tried their hand at fishing by the lake. The destination was a beautiful campsite surrounded by tall trees and a sparkling lake. As evening approached, we gathered around a campfire. We roasted marshmallows and made s'mores while sharing stories and singing songs.
