

Saudi Arabia is blessed with great wealth of natural resources, a family-oriented Islamic society, and extraordinary opportunities for economic growth. The improved and upgraded services and facilities will attract small and large businesses interested in participating actively in a dynamic economy. Cultural and entertainment projects will include the establishment of libraries, exhibitions and museums, and the organization of various types of events and activities. The Kingdom's strategic location, which connects the waterways of three continents, Europe, Africa and Asia, will make it a leading port for trade and transportation for goods from different countries around the world. The people Saudi Arabia's Vision 2030 is based largely on the ambition, determination and talents of its people and their Islamic values. Saudi Arabia will be a leading business center with unlimited opportunities to develop new talents and creative enterprises. The diversified and renewed business environment will provide job opportunities for all citizens and attract new investors. Housing and community development projects will provide a pleasant, safe and sustainable environment for the citizens of the Kingdom. The updated educational system will provide high-quality education and develop available talents and potentials.
