

Dear Editor I am writing to complain about the environment harmful. Finally, they must reduce the portion of water supply to those who has pools in their house. He throws them away from the waste bin. Moreover, he changes his big pool more than twice every day which is a very big mount of water. In addition, he should use less plastic items since that damages the environment. Moreover, the council must spread posters on the walls that talk about the harm that is caused due to plastic
