

Experiment A Listen and read. Umair and David are making an electromagnet in their science class. Umair: We've got everything. And we have some wire. David: OK. Let's get started. Leave about 5 centimetres of wire free at each end. David: OK. Done. Umair: I hope so. Can you pick up the paper clips? Find the words in green in the text and work out their meaning. Use a dictionary if you need to. C Study the rule then find other examples in the conversation. Umair is reading the instructions. Haven't we? David: I think a coil. We have an AA battery. We have a few paper clips. David: No. Look at the picture. Umair: Don't wrap it slightly. Wrap it around eight or nine times. Umair: Good, but be careful. Umair: . Perfect
