

McDonald's is a fast food restaurant chain and "has over 32,000 locations in more than 100 countries around the globe" (McDonald's website). It is one of most popular fast food restaurants in the world, and preferred by a lot of people. The restaurants are very modern and cozy and always have a place for children to play in. It is also known for their Happy Meals, which contains a hamburger, french fries and the always desired toy. McDonald's is my favorite fast food restaurant because it has everything I love.

Their food is my favorite, the service is good and they have charities, which is very important.

McDonald's has a lot of combos, which have a hamburger, french fries and a soda. There is a wide variety of hamburgers and my favorite is the Quarter Pounder with Cheese. It is made of a quarter pound of meat cooked to the point and always crunchy at the edges, two slices of the most delicious and melted cheddar cheese and onions, obviously with ketchup and mustard; this hamburger does not come with mayonnaise. Another great thing from McDonald's is their famous french fries, which everyone loves. They are crunchy yet soft inside and their taste is unique; no other restaurant has the same flavor.

They are served very warm and with a lot of salt. Aside from the combos, there is the Happy Meal, which is always wanted by kids. The Happy Meal comes inside a box made of red and yellow cardboard.

Inside comes a hamburger, french fries and fruit. The hamburger is made of bread, a good portion of meat always well cooked and crunchy around the edges, a slice of the most luscious cheddar cheese, onions chopped very small in such a way that you will not feel them when eating, and at last ketchup.

French fries come in a very small portion, so kids will not eat more than they are supposed to. Finally, there is the fruit, the majority of time apples, so kids always stay healthy
