

Why do some people find it harder to learn a language than others? Third, psychological challenges and the desire not to complete the study of this language because he has no motivation to use it in his community and is afraid of being ridiculed by others if he makes a mistake in using the vocabulary due to its abundance and not knowing most of its meanings. The listener may not understand the speakers of the language he wants to learn from the teachers and the difficulty of communication between them. First, vocabulary and grammar. People may have difficulty learning the basic rules and understanding them to build sentences is difficult. Some people may face problems in learning the language, so let's review most of them. Fourth, education
