

Travel How many places have you traveled to? Before the trip, I search for information about the location, weather, famous tourist attractions, transportation, local cuisine and prices on the internet. I've visited all the provinces throughout my country. I often go sightseeing, take pictures, mingle with the local people and sample the local cuisine. I love riding the gondola along the canals while watching Italian people live their daily lives. I usually pack my suitcase with some necessary items such as clothes, medicine, food, a map, and a camera. Do you prefer traveling by car, train or plane? Planes are much faster than any other mode of transport. What's your favorite tourist attraction? That would be Venice city in Italy.
