

They say when you are living in this world money is very important, FACTS. Having a satisfaction when you see everything is settle and the relief in your stomach that will give you butterfly, even you're a Doctor, a Teacher, a Police or anyone that have an occupation, we all move and work to the bones until all are fine, just like a Student whose working part time while studying. Being a student has a lot of responsibilities, school projects, reports, activities and other stuff. You will have a limited time when doing some part time job while taking a class, and it can cause you failures in studies at the same time Student having a part time job while studying is not a bad thing nor a good thing. It is risky but sometimes it's just the right thing to do to help yourself and also your parents especially when no one will support you financially in studies. Buy the food you like, buy the clothes you want to and especially paying your own .tuition on school
