| .There are different explanations | s for the use of right versus left |
|-----------------------------------|------------------------------------|
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
|                                   |                                    |
