

Governance often refers to a particular level of governance associated with a type of organization (including public governance, global governance, non–profit governance, corporate governance, and project governance), a particular 'field' of governance associated with a type of activity or outcome (including environmental governance, internet governance, and information technology governance), or a particular 'model' of governance, often derived as an empirical or normative theory (including regulatory governance, participatory governance, multilevel governance, metagovernance, and collaborative governance).
