

It's a well-known fact that man is a social human being. We watch movies and programmes on TV. We sometimes play video games and I enjoy that competitive atmosphere. They can meet in coffee houses, hotels, restaurants, parks or diwanias. The diwaniya is an important part of the Kuwaiti heritage. It is comfortably furnished for guests. There are many cushions that are used as seats and armrests. The diwaniya has small cups for drinking coffee. So, people need places to meet up and socialise. My favourite meeting place is the diwaniya. It has a main sitting place called Diwan. The floor is usually covered with carpets. We discuss our issues, share ideas and exchange opinions.
