Gross income is more inclusive than is adjusted gross income (AGI).As of the time we went to press, the charitable deduction for nonitemizers had not been extended to 2022.AGI is gross income minus "for AGI" deductions. Therefore, the primary difference between gross income and AGI is the amount of for AGI deductions. Adjusted gross income is more inclusive than taxable income. AGI is gross income minus for AGI deductions. Taxable income is AGI minus "from AGI" deductions.
