

The CEO updated the Board on the matter. Mr. Foster is in desperate need of the animals and he is suggesting that it is something the BAS can facilitate again, but in addition to that there are some other farmers who had indicated interest in the importation of animals who was not involved in the previous importation. He is requesting permission to proceed again with the same arrangement, the same deposits and the same security safeguard being offered by the Central Bank in terms of ensuring the loan is appropriately underwritten. He noted based on the balances that are available the loan will be paid off.
