

An ambitious IT Maintenance Operation Engineer with ten months of successful experience in both remote and field work as a Technician and Maintenance Officer in Operations and Maintenance. I am committed to gradually developing my expertise through patience and perseverance, focusing on maintaining and improving IT infrastructure by effectively investigating and solving issues. I aim to utilize my skills in troubleshooting complex dynamic and static systems to ensure the reliability and performance of devices, while continuously enhancing software, hardware, and firmware processes. My goal is to contribute to the success of the organization by providing efficient and innovative solutions.
