tipped pink shaft into her lips for a few seconds, wiggling her tongue all around the purple crown and then left the bathroom.More and more of the silky fabric was pulled aside, baring his chest, and then his stomach."Hey Mike, I'll bet your having some real fun rubbing and touching her titties aren't you? . . . but it's always much better to see a girl's breasts while you are excited. Honey let me help you with this top," and without any notice, she found the sides of the top that were tucked into her short skirt, pulled them out and then instantly yanked the new top over her head .Amanda looked straight down and was instantly aroused because although slightly covered by the transparent robe, the tip of his cock was still quite visible."How about THAT outfit Mike? Almost like a little cheerleader, isn't she? Maybe we should have her do some cartwheels for you. (pause) On second thought, let's get back to where we were. Let's mount this BIG horsey Amanda . . . and continue our lessons. Here I can help you honey," she said.Stepping over his waist, and for the moment having her skirt cover her pussy, she looked at him with a grin on her face and stood up. Her tits were fully aroused with both nipples as stiff as they had ever been.Amanda turned sideways, looked down and noticed the fully erect cock, pushing against the thin fabric of the chiffon robe.Hearing her passion, Mike captured both of her apple sized titties in his hands and felt her stiff nipples on his palms.A devilish grin came across her face, as she found the gap between the two sides of the chiffon robe and slowly began to pull it apart."My turn," he said, as he knelt down in front of the topless girl, located the latch and the short zipper, and within seconds, was pulling the skirt down to her feet.Placing his hands over the crotch of the robe, he timidly came over to the table and slipped into a chair across from Amanda.Ignoring her daughter, Debbie continued to move things along in a very suggestive way."Amanda, I want you to sit on his lap and face him," she said, getting secretly aroused at her suggestion, knowing that the boy's rigid cock would probably be up against her daughters .Debbie also noticed that her daughter's breasts were perking up and her nipples were stiff buds up against her top.Amanda shivered as she felt his hot moist hands move closer and closer to her nipples, that she fantasized about him touching.At the same time, Amanda bashfully moved her hands down the front of her skirt, lifted it up so that she could get to his cock and moved further to between her legs where his shaft was up and standing at attention .As she was working her way down the hallway, her hand immediately went to her damp pussy and she soon rubbed her clit as she entered her room.Debbie heard the shower start and carrying the robe with her; she carefully opened the door, placed the robe on the sink and scooped up all of the boys' wet clothes.She was tempted to pull the shower curtain back to catch another glimpse of his naked body, hopefully catching him jacking off .Getting somewhat impatient, Debbie decided to take the lead and move things in a more intimate direction.Mike smiled at the interplay between Amanda and her mother as he continued to feed his face."That's right. Let me demonstrate," she said gently moving her daughter aside and spreading her legs and then sitting on his lap.She immediately felt the boy's stiff cock snuggled against her warm crotch.She began to gently rock over his cock, knowing he was getting more and more aroused.somewhat transparently hidden by the chiffon, but not by much.She was wearing very tight jeans so she immediately felt the touch of his stiff erection on her young crotch.Debbie looked over her shoulder at the same sight and winked at the boy, indicating things were about to start.and realized he could pull Amanda forward towards his stiff cock and drive her pussy right into it. If Amanda didn't feel

his shaft before, when he pulled forward .the thickness of his cock would move up against her damp pussy .They practiced for a few minutes, causing both of their loins to reach a near nirvana pitch.Debbie pulled up a chair and watched the two embrace, noticing that both of their faces were turning bright red with excitement.At the same time, his hand was all over her ass as he kept pulling her towards him and she began to buck her hips to generate the most amount of arousal for both of them.Once she got there as she slipped off her jeans, she noticed that her panties were now literally soaked with excitement.Her mom sensed that and actually placed her hands under her arm pits and lifted the girl back up onto Mike's lap."Kissing and touching are two great things. But this time while you kiss, I want you to begin to let your hands explore each other's bodies. I know you were thinking about Amanda's titties Mike . . . and honey I am certain you are anxious to get your hand wrapped around Mike's BIG COCK sweetie so let's give it a try."Meanwhile Debbie was watching both of them manipulate each other's body, but was frustrated at not being able to see what their fingers were actually doing."Good Girl! He has a BIG ONE doesn't he? Let's go back and continue where we were, with one last change. Mike, let's pull up the bottom of Amanda's skirt and tuck it up here against her tummy."Mike was hesitant after her quick outburst, but looking into her eyes, he took his hands off her bare titties, and moved them down to her stomach.Amanda turned even more red with embarrassment, as Mike slowly pulled up the fabric and was rewarded by the sight of the girl's bare pussy .She opened up her closet and took out her summer white chiffon robe and knew this was what she was going to leave for the innocent boy to wear."Don't take too long Mike; I have left the robe here on the sink. Amanda and I will be waiting for you in the kitchen when you are all squeaky clean for us."Interrupting a brief conversation, she was having with her mom, Mike leaned his head across the doorway hoping to see someone."It will only be for a short time while your clothes get dried. How about some chips and salsa?"For the next several minutes the three of them visited back and forth and munched on chips.Amanda was now beet red with embarrassment ."Sure, if you are UP (pause) . . . for it," she said suggestively.Mike bashfully followed her instructions, but tried to keep his hands over his crotch.Without any further waiting, she placed all of her weight on her right foot, lifted her left leg over the boy and gently placed her tight little ass on his lap.Debbie was getting aroused watching the two begin to kiss.Amanda stared at her mother's suggestion, knowing her skirt was super short, and angry she had to stop feeling his big cock ."No panties honey. I want you to feel him right up close to your little cunny."....
