

The following inventions have changed my life: the cell phone, the credit card, the digital camera, and the plane. I can shop anytime without having to carry cash with me. I can also buy things online like airline tickets. And finally, I can take lots of vacation photos with my digital camera and send them to my friends! I can always talk to my friends on my cell phone. My life has been easier because of my cell phone. I can travel around the world in a plane, and it's a fast and easy way to travel. My life is definitely better because of the plane, particularly when I take a vacation.
