

"I founded Promentum Equity Partners after a career in management consulting with KPMG, Accenture, McKinsey & Co. My motivation was to work with ambitious founders who wanted to make a real and lasting impact with their business ideas. We raised our first fund in 2016/2017 of approx. 45 MEUR, which was invested in a number of promising companies. We exited three of the companies last year and the outlook for the remaining portfolio is quite promising and on target to deliver 3–5x. We are currently raising our second fund, which will be approx. 100 MEUR with similar expected returns."
