

Dear Dr. Ahmed Seif El-Din, I am Omar Medhat Kamal, A graduate of the Faculty of Education, Department of Educational and Information Technology. I would like to express my sincere gratitude for your interest in my application, but I was surprised by the rejection decision contained in the email on Thursday, August 8, 2024. I have previously applied for the position of Instructional designer in your esteemed company, and the required tasks have been successfully completed and qualified for the personal interview. Over the past two years, I have gained hands-on experience in designing and developing various e-learning materials, and I have done an in-depth study of the latest technologies used in this field. Based on what I asked Mr. Walid Orabi, Head of the Department of Instructional Design, I understood that the reason was to choose a candidate who needs less time for training and development. Sincerely,
