Love House is a house for a couple.I draw the biggest curve on there with width and depth of a building, I distributed a place of a roof and a place of a sky with the curve?And I planned the stairs which went up from the first floor to the second floor with this curve.On a very small site of 33 square meters of frontage 3.3m / 10m deep, I planned a building of frontage 2.7m / about 9m deep.
