People work in order to support themselves and their families financially and for them to be able to enjoy life with the earnings that they have. For example, they could go on vacation buy themselves gifts and more . teenagers are on their way of life to adult hood, they should learn to take responsibility of themselves financially in order to do so they need to get jobs to be able to fund for themselves and have self–reliance They will also learn how difficult it is to make money so they will keep thinking about saving it, which is beneficial for both the teenager and the parents. They would also learn how to save money and be able to budget their money. As well as they will learn to work with others in there work space and they will socialize, working will also teach you how to work with people who have different opinions then you which can be very beneficial for you . However, even though it has its upset, also has many downs, for example students could miss their classes as well as having a huge responsibility at a young age. Although it has its disadvantages jobs will give teens a firmer grasp on reality and on whats to come .
