your eyes are watery, your throat is sore, you are coughing and sneezing constantly, and you are
shivering, then you have influenza, or the flu.I had seafood, then I had steak, and for dessert, I had
pudding followed by ice cream and chocolate fudge cake, and...Oh, the thought of food makes me
sick!Omar:That's a shame!I have a stomachache, and I feel like vomiting.Omar:You should see a
doctor.Bud:I just did.Sometimes people with the virus wipe their noses or eyes with their fingers, and
then touch objects around them, such as a doorknob, a telephone, a keyboard, or any other everyday
object.Additional symptoms are a high fever and severe muscle aches and pains.A person sneezing or
coughing transmits the infection through the air.So vaccination against colds is impossible.
