

The topic of school uniforms has been highly debated for many years. A fourth one is that uniforms can be a great advertising for the school as people may recognize the uniform, which is why students are expected to look presentable and tidy, if not many schools have some sort of punishment for untidy students. This can be seen at competitions when schools compete against each other and the uniforms can be recognized. A first advantage is that with school uniforms children do not get bullied for what clothes they wear as everyone is the same.
