

Hello, my name is Gaby, I am 51 years old and I come from Vienna...I did not want to find a doctor through an agency, so I researched for days on the Internet to find the doctor I could trust and that is how I came across to Mr. "Dr. Ali Can Gunenc " and I immediately contacted the hospital in Istanbul where he works, by phone.I have had several plastic surgery operations over the last 15 years and have gained experience through this, so it was particularly important to me to find the right plastic surgeon.
