

Everyone dreams of a wonderful future. A doctor works in hospitals, polyclinics and medical centers. The doctor enjoys attending medical conferences. His future intentions are achieving different degrees in medical fields. He does his best to achieve his dream job. If anyone enjoys being a famous doctor, he must have a bachelor of medicine. The doctor is a kind of person who is helpful, merciful, kind and thoughtful. My dream job is to be a doctor. He starts his work at eight o'clock in the morning until evening.
