

My number one interest is to play sports. USE FREQUENCY ADVERBS, POSSESSIVE ADJECTIVES, OBJECT PRONOUNS, AND CONNECTORS. But on Saturdays and Sundays we watch Deportivo Cuenca games on TV and buy pizza. We usually go for a ride to remote villages to get fresh air and wonderful views in the countryside. However, I have a lot of spare time at the weekend, and on Saturday and Sundays, there are good programmes on every channel, so I sometimes watch them at home with some biscuits. In the sector where my grandparents live, there is a football court. In my free time I like to play soccer with my cousins and my brother, but sometimes I play with my family too. Of course, I have two tennis rackets and a tennis ball. He says that tennis is a fashionable sport for young people or old people. MY FREE TIME ACTIVITIES.
