

Everyone in the world hates being alone unless they are strangers. Our qualities are common, calmness and peace of mind. From the characteristics of Hadeel affectionate and passionate. The characteristics of Amira to judge by logic. One of my best friends is Hadeel. In the beginning, Hadeel is a best friend. We got to know each other in Corona. We were in the second intermediate grade. We used to communicate daily, and we still communicate today and we got used to this thing. In short Hadeel is the best friend who I consider as my sister to me. This makes people look for friends and try to make friends with others. However, I am one of those people who have many friends. I was 11 years old at the time, and she was 13 years old.
