

Mother is giving, love and tenderness. She teaches him honesty, respecting others, helping the poor and other good behaviors. She spent the night working at our leisure, taking care of the patient and suffering the pain, preparing the different types of food, so that each of us eat the food he loves, cleaning our clothes to be in the most beautiful image and cleaning the house to make us feel comfortable. The mother is the first teacher responsible for education, teaching good customs and traditions. The child learns good behavior from his mother. Therefore, every son must obey and respect his mother.
