

This role involves providing high-quality civil site supervision, ensuring works comply with client guidelines, operational directives, and instructions from the Project Manager, Engineer, and Social Safeguard Officer. Responsibilities include monitoring contractor progress, verifying work against specifications and drawings, inspecting materials, participating in quality control, and assisting in problem resolution. The position requires checking contractor payments, ensuring HSSE and PSEA compliance (per the country's action plan), preparing progress reports, maintaining records, and fulfilling other assigned duties. All activities are performed under the direction of the Project Manager and Civil Engineer.
