- o Fixed & PTZ IP Cameras
- o Up to 4K Models Available
- o ONVIF Profile S Conformant
- o Full Frame Rate Video
- o Sure Vision 2.0 WDR Technology Available

**Analog Security Cameras** With three new families of high-resolution, analog cameras, Robomatix our investment in research products that meet the needs of today's security applications.

**Solar Panels Modules** video camera security and surveillance solution Robomatix group offers an extensive selection of network cameras, analog cameras and specialty camera systems ideal for any lighting condition, any environment and any

application. For high flow-rate applications, Robomatix offers Walk-Through Metal Detectors with extremely high discrimination of personal metal objects to minimize the incidence of nuisance alarms. From our industry-leading IP and standard definition fixed cameras to high-speed domes, integrated positioning systems, advanced thermal imaging cameras and more, we offer a camera for any environment, any lighting condition and any application. Metal detectors Today's security sector and the ever-stricter regulations relating to Metal Detectors for inspecting people in transit require equipment with the highest operational and functional performance.

## 2 Network Security Cameras Delivering unparalleled image quality, full frame-rate video and the functionality that your application demands, Robomatix offers the industry's most powerful fixed and PTZ IP cameras.

### Robomatix Partners

We created a strong network of partners where our clients are the main core of this network resulting in a strong infrastructure of satisfied clients all over Egypt, we dedicated our resources to make sure we are maintaining this network successfully.

#### 1 Our Product : Security Solution

1. We offer our clients high quality solutions in partnership with Sangoma Asterisk (Dgium), Polycom and Grand stream. We created a strong network of partners where our clients are the main core of this network resulting in a strong infrastructure of satisfied clients all over our region, we dedicated our resources to make sure we are maintaining this network successfully. We are dedicating our forces to find and develop the solutions that best fits our region regarding price and quality demands and tune fining. Robomatix is one of the pioneers in delivering Contact Centers Solutions based on Elastix. We raised the bar for quality management with the help of a patented suite of integrated technologies that drive quality and accountability in our service delivery processes.

(Mission) Our team is a collection of the most professional and experienced engineers in the field, our German sisterhood with Robometix Technologies is a great added value to our technology advance and edge enhancements. Our Value Since our business is built on happy customers who are eager to refer their friends and family, it's in our best interest to provide exceptional customer satisfaction and service in every aspect of installation. Our most recent high profile recipient was British Transport Police to help with operation shield, their anti-knife initiative at a number of British railway stations.

#### Explosives & Trace detectors

The MMTD takes portable threat detection to a new level. A call center is operated by a company to administer incoming product support or information inquiries from consumers. We provide local responsiveness, national security services, and global consulting and investigations, wherever clients are in need of Safety and Security. This operation has proved how versatile the Garrett walkthrough metal detectors are. Operators can quickly switch between particle or vapor analysis as required. It's tough exterior design is ideal for the soldier on the front line and the security agent working in harsh elements (e.g. Border/Ports). Our scope of products is in the fields of surveillance system , low current Products and Systems, Security and many more.

#### Turnkey Solar Energy Solutions

7. At Robomatix, we are prepared to address and meet the market demand for IP Phones and VoIP. Outgoing calls for telemarketing, clientele, product services, and debt collection are also made. In addition to a call center, collective handling of letters, faxes, live chat, and e-mails at one location is known as a contact center. Elastix is an open source solution, which is now one of the most famous call center solutions worldwide. Cutting-edge technology is behind many of our proudest achievements.

#### Our Solution

We are dedicated to making sure that quality is built into everything

we do and that our customers always receive the best products and service, keeping them informed every step of the way. Cellular Intercept solution 10. Solar Heaters 2. Solar Air Conditioner 3. With such a wide range of products on offer, we're sure to find something which meets your security needs. We can even help you remotely control access to your property and remotely monitor your CCTV. Metal detectors 7. Customer waiting organizing solution 9. Solar water pump 5. Inverters 6. Sound systems 4.
