

There are many picturesque places in Oman. I visited some of them like Salalah, Wadi Al-Shatn and wkan village .Where I saw there are many things that are comfortable for the eye, such as thick and long trees, and there are many types of them, which cover the park beautifully. In addition to the birds on the trees, some of them fly in the air. There are some wide areas dedicated to games. In addition to , there are very noisy sounds like the sounds of cars and trucks on the street, and horses in the garden. And other places are beautiful and terrible places, but my visit to the Alsahwa Tower Park in Muscat was very wonderful. Like, hear the sounds of a group of birds singing, and the sound of fountain water.
