Traveling is a very beautiful thing.Also, in Turkey, the food is delicious and is a mixture of Syrian and Turkish food, while in the Emirates, Gulf restaurants are greater widespread.Furthermore, Turkey is famous for its super atmosphere, views of green mountains, and colorful flowers, unlike the Emirates, which is famous for its activities and market.Moreover, in Turkey, you feel like a stranger because the human beings there only speak Turkish, which induces some problems in communication.Countries Firstly, I traveled to Turkiye and the Emirates final summer.In short, both nations are stunning and each has its very own features, and traveling is a beautiful and extraordinary journey that I tremendously recommend
