

Ahmad Alshugairi is one of the most remarkable people that had a massive and positive effect on the middle east, especially Saudi Arabia. Moreover, his goal was to enlighten and inspire us to adopt these positive habits that can make our community more productive, respectful, and organized. Second, he is patient, which is an essential quality because being patient during difficulties means you are a wise person who other people can rely on. Finally, he is a good talker, which means he can convince people to make good habits in their country, and this is an essential quality, especially when people see him as a role model. First, he always thinks positively and looks for solutions to any problems.
