

Our vision is to break down cultural barriers and promote cross-cultural dialogue while offering a rich and immersive experience of Saudi culture in order to promote global understanding and appreciation. Unlike our competitors, visitSaudi and Ootla who offer an entertainment-focused app with limited offerings in some Gulf countries, such as Qatar and Saudi Arabia, our project provides a comprehensive service to help customers experience Saudi Arabia first hand. The program offers a Saudi-style hiking experience. We strive to showcase everything related to the Kingdom, from exhilarating hikes to delicious cuisine to immersive customs and traditions. It also includes the Saudi style, for breakfast, lunch and dinner, all activities such as hunting and camel riding in the traditional way.
