Hanna boubout's part: His main work; Overview of Lawrence Venu's main work in the field of translaon studies. Having said that, Lawrence Venu is a highly respected translaon theorist and scholar who has made significant contribuons to the understanding and prace of translaon. Foreignizaon refers to maintaining the foreignness and uniqueness of the source text, while domescaon involves adapng the text to the target culture. Venu advocates for a more nuanced approach that balances both strategies, allowing for cultural exchange while preserving the integrity of the source text.
