

Roger is a recent graduate from a reputed university. (<https://terra.oregonstate.edu/2013/01/normative-science/>)

- o Ethics are based on the norms of the society
- o Right or wrong based on standards of society
- o Ethics also give some norms to the society
- o How to judge people based on standards
- o Ethics is not descriptive but evaluative
- o Not; what is this, but; what should be!
- o Ethics is a field of social science
- o Studying moral behaviour of individuals and society

He has got a new job and he is very happy with it. He is very honest in his work and always reaches office on time. He cares about his colleagues and helps them whenever they need him. But everyone knows that he takes drugs and is an alcoholic. He is very good at his work.
