

Pictures Many words are difficult to clarify by using objects. For example, words for items that are difficult to bring into the classroom like a car, a bus, or a house, and millions of other items. In this case, the teacher may resort to pictures or drawing to present the new item to the pupils. There are also pictures that show actions events and even stories. All these can help the teacher present and explain the meaning of words. In using pictures or drawing the teacher should make sure that all pupils could see the picture clearly.
