The Ministry of Municipalities and Housing has intensified its operational and field monitoring plans in coordination with Holy Makkah Municipality during the 1447 AH Hajj season.These efforts complement the comprehensive preparations implemented by the municipalities of Makkah, Jeddah, Madinah, and Taif through operational and field plans aimed at raising readiness levels in cities and the holy sites and enhancing the efficiency of municipal and health services provided to pilgrims during Hajj 1447 AH. The ministry affirmed that these efforts reflect the leadership's commitment to providing the highest standards of service and care for pilgrims by mobilizing all available human, operational, and technological resources, ensuring pilgrims can perform their rituals with ease and peace of mind while demonstrating the high level of governmental integration in managing the Hajj season.Field inspections cover various locations in Makkah and the holy sites.
