

BAG by I am really interested in the health news that I read daily for several reasons. Moreover, I try to follow the health regime to Protect myself from various diseases without having to consult a doctor. Furthermore, this article makes me more aware about risks in case of irregular treatment as the patients in Gaza. Before the war broke out, she was being treated at the Turkish – Palestinian Friendship Hospital in north Gaza, but now she is trying to travel abroad to complete her treatment after running out of medicine from Gaza. This report talked about the prevention of cancer patients from leaving Gaza for treatment since some hospitals were closed due to lack of fuel.
