

Al Bahr Towers: Description: These twin towers are renowned for their dynamic facades inspired by traditional mashrabiya patterns. The adaptive shading system responds to sunlight, reducing interior heat gain. Image Reference: Photographs of Al Bahr Towers' innovative design can be found in architectural galleries, showcasing the functional beauty of the mashrabiya-inspired facade. Ghantoot Highway Rest Areas: Description: Located between Dubai and Abu Dhabi, these rest areas are designed to provide essential services to travelers. While specific details about the incorporation of mashrabiya elements are not provided, the architectural design aims to offer comfort and convenience. Image Reference: Visuals of the Ghantoot Highway Rest Areas are available, highlighting the facilities and design elements.
